Case No.: 24WM000168

**DECLARATION OF ELLEN SWENSEN  
IN SUPPORT OF *EX PARTE*  
APPLICATION FOR ORDER  
SHORTENING TIME**

**PRIORITY ELECTION MATTER**  
(Cal. Elec. Code § 13314)

**ACTION REQUIRED BY:**  
December 5, 2024

Date: TBD  
Time: TBD  
Dept.: 21

I, Ellen Swensen, the undersigned, declare as follows:

1           1.       I am a United States Citizen over the age of eighteen years and am a party to the  
2 above-referenced action. I make this declaration based on my own firsthand knowledge unless stated  
3 otherwise. If called to testify as a witness, I could and would testify competently thereto. I am a  
4 registered voter in the County of Riverside, State of California and am currently a resident of  
5 Riverside County, California. I voted in the 2022 midterm election, which was held on November  
6 8, 2022, and was a Riverside County resident prior to, and at the time of, the November 2022  
7 election. I also intend to vote in the 2024 general election on November 5, 2024, as a Riverside  
8 County resident.

9           2.       I hold a B.S. in Business Administration from the University of California Berkeley.  
10 My professional background involved quantitative market research, predictive sales modeling and  
11 the profitable management of flagship brands for Fortune 100 companies.

12           3.       I make this declaration in support of Petitioners' *Ex Parte* Application for Order  
13 Shortening Time.

14           4.       I am the Chief Analyst for Election Integrity Project California, Inc. ("EIPCa"), a  
15 Petitioner in this action. I am a founding EIPCa Board member and currently an advisor to the EIPCa  
16 Board. EIPCa is a nonprofit 501(c)(3) public benefit corporation committed to defending, through  
17 education, research, and advocacy the civil rights of United States citizens to fully participate in the  
18 election process under Federal and state law. EIPCa provides grassroots oversight to ensure the  
19 integrity of that part of our Republic through which citizens exercise their most fundamental right -  
20 the right to choose representatives by fair and honest elections. EIPCa works to ensure that all votes  
21 are lawfully cast and accurately counted. EIPCa is neither affiliated with nor supportive of any  
22 political party or organization and its members have diverse political affiliations. EIPCa  
23 accomplishes its purpose in several different manners, including training citizens to observe and  
24 document election procedures used to manage elections and process ballots, communicating with  
25 election officials, and by requesting and auditing election data. My role as Chief Analyst on a day-  
26 to-day basis involves overseeing the Data Analysis Group ("DAG") of EIPCa, which is comprised  
27 of myself and two programmers, Carl Knowles and Dale Sinor.

28

1           5.       I have been interviewed on at least twenty occasions by print and broadcast news  
2 organizations about California election integrity.

3           6.       In the furtherance of EIPCa’s auditing efforts, I made a request to EIPCa President,  
4 Linda Paine, to submit an application to the California Secretary of State requesting a “voter list or  
5 file” by precinct of each person who voted in California in the November 8, 2022, federal election.  
6 Ms. Paine and I, together, drafted the application, requesting that the Secretary of State include each  
7 voter’s name, address, birthdate, state Registration ID number, precinct, voting method and current  
8 registration status. The data EIPCa sought was the November 2022 election “accounting” data  
9 supporting the certification of results of the November 2022 federal election statewide and per  
10 county (“November 2022 Certified Accounting”). I understand that this application was submitted  
11 to the Secretary of State on or about February 27, 2024.

12          7.       I subsequently communicated with EIPCa Programmer Carl Knowles, who told me  
13 that, after numerous follow-up emails and phone calls with the Secretary of State’s VoteCal  
14 Department, on or about June 28, 2024, he received the voter history and voter information files for  
15 the election (“June 2024 Accounting Data”).

16          8.       Through my communications with my colleagues, I came to understand that the voter  
17 history file contained the Registration ID numbers, the election date and vote methods (poll, vote-  
18 by-mail, etc.) of those who voted in the November 2022 election. The voter information file  
19 contained Registration ID numbers, names, addresses, birthdates, precinct numbers, current status  
20 (active, inactive, cancelled, etc.) of all persons who were in the registration files as of June 28, 2024.  
21 My colleagues, EIPCa Programmers Dale Sinor and Carl Knowles, uploaded these files and merged  
22 them together using the Registration ID as the matching variable to yield just the voter information  
23 of those who had voted and their voting method in November 2022. I understand from my  
24 communications with the DAG team that the data EIPCa obtained in June of 2024 also reflects  
25 active, inactive, and cancelled voters, and to my knowledge, should have served as a “snapshot” in  
26 time of the November 2022 Certified Accounting data.

27          9.       At my direction, the programmers developed Microsoft Excel spreadsheets  
28 summarizing the June 2024 Accounting to show the number of votes and “multiple votes” by vote

1 method. This information was listed by county and provided the state total, and I converted the  
2 Excel spreadsheets into two PDF charts. True and correct copies of the charts I created are attached  
3 hereto as **Exhibits 6 and 7**. (Evid. Code § 1521(a).) Due to the huge amount of data provided, our  
4 programmers query the data sets to compile accurate summaries that can be easily understood. These  
5 compilations do not affect the underlying data set or in any way change it, meaning they are reliable,  
6 and can be verified and reproduced.

7         10. In reviewing the data, I noticed several discrepancies between the November 2022  
8 Certified Accounting and the June 2024 Accounting at the statewide level. First, I noticed that the  
9 Voter Participation Statistics by County—an accounting of the number of persons who voted in each  
10 county—which is on page three of the “Statement of Vote” published by the Secretary of State showed  
11 that there were 11,146,620 total votes listed in California for the November 2022 election. Note:  
12 Here, “votes” means November 2022 voters’ ballots that were counted and not rejected. However,  
13 the June 2024 Accounting provided by the Secretary of State showed that there was a total of  
14 11,190,244 votes in the November 2022 election. My audit revealed that there was an increase of  
15 43,624 votes statewide between the time of the November 2022 Certified Accounting and the June  
16 2024 Accounting. Additionally, the June 2024 Accounting reflects 32 California counties that had  
17 71,092 more ballots counted than the total number of ballots counted and certified in the November  
18 2022 Certified Accounting. The June 2024 Accounting also reflects that 25 California counties had  
19 27,764 fewer ballots counted than the total number of ballots counted and certified in the November  
20 2022 Certified Accounting. A true and correct copy of the Voter Participation Statistics is attached  
21 to the accompanying Request for Judicial Notice as **Exhibit 2**.

22         11. My audit of the June 2024 Accounting also revealed that there were 21,355 voter  
23 identifications (IDs) and 42,769 ballots cast that had more than one vote attributed to the voter  
24 identification. These “multiple” voting histories were not sequentially located in the file’s rows.  
25 Instead, they were randomly dispersed in the voter history file. I understand from my colleagues  
26 that each Registration ID number in the June 2024 Accounting is unique to one voter and not  
27 duplicated, which confirmed for me that single voters were indeed shown to have voted multiple  
28 times in the election.

1           12.     Based on my findings, I communicated with my colleague, Linda Paine at EIPCa,  
2 who I understand sent a certified letter to the Secretary of State on September 6, 2024 (and  
3 supplemented this letter on September 20, 2024, with exhibits), requesting an explanation for the  
4 discrepancies in votes. To date, I understand that EIPCa has not received updated data or  
5 explanations from the Secretary of State, nor has EIPCa received answers from the Secretary, as  
6 was requested in EIPCa’s September 6, 2024, letter.

7           13.     Time is of the essence, and, as a voter in the State of California, I request, on behalf  
8 of myself, Petitioners, and all California voters that a hearing on the merits of Petitioners’ Verified  
9 Petition for Peremptory Writ of Mandate be heard, and a ruling issued, before December 5, 2024 so  
10 that EIPCa has an opportunity to seek court intervention to determine whether the appointment of a  
11 special master is warranted to oversee for the Secretary of State to certify the candidates with the  
12 highest number of votes on the 38th day after the election. An expedited hearing date would also  
13 allow oversight by a special master, if necessary, in allowing elections officials to fulfill their duty  
14 to accurately certify the election results for the November 2024 general election on December 5,  
15 2024. My requested relief is to ensure fair, transparent elections on behalf of California voters and  
16 to ensure that EIPCa receives an accurate finalized voter history and voter information files from  
17 the November 2024 election. I also request an expedited hearing date and a ruling on the merits of  
18 Petitioners’ writ petition before December 5, 2024, to obtain answers to the questions EIPCa set  
19 forth in its September 6 and September 20, 2024 correspondence and prevent errors made by state  
20 and county elections officials in the 2022 election from occurring in the upcoming November 2024  
21 election. A hearing date on the peremptory writ of mandate 2+ months after certification will  
22 irreparably harm me from obtaining my requested relief to ensure that Respondents perform their  
23 ministerial duties in connection with the November 2024 election, if the Court finds that it is  
24 warranted.

25           I declare under penalty of perjury under the laws of the State of California that the foregoing  
26 is true and correct.
